Fairview School offers an assignment notebook on the registration/fee form. You may pay for an assignment notebook when you pay your other school fees. Your child will receive their assignment notebook after the start of the school year.

A special calculator has been chosen for the district to use in **kindergarten through eighth grade**. These calculators have been purchased by the district at cost. The calculator will be distributed in the classroom and you will be asked to pay for it at the time of our book fee collection if you have not already bought one in a previous year. Grades 1-5 – your child's calculator was sent home with him/her at the end of the school year. He/she should bring it to school on the first day. If it is not working properly, you will need to purchase a new one at the time of registration. Thank you.
